

CATWALK

Superior Cat Door

Before installing this cat Flap, please read the following instructions carefully

WARNING: Cutting holes in glass can be both hazardous and costly if not carried out by a professional. In order to avoid costly repairs or injury we suggest that you contact your local glazier or cat door installer.

PLEASE NOTE: You must not try to cut a hole in either toughened, glass or double glazed glass, because of their special properties. For these types of glass the hole must be cut prior to manufacture.

Fitting to Glass: No screw holes are required in the glass as the screws are connected to both the external and internal sections within the glass cut out area.

MEASURING AND MARKING

Measure the belly (stomach) height of your cat (this is normally 100mm to 150mm) depending upon the breed.

On the outside of your door or window, mark the belly (stomach) height of your cat from the floor onto the door and scribe a circle on of 245mm starting from the base line as illustrated.

USING THE FOUR-WAY LOCK

The four-way lock allows you to control cats access in and out of your home.

- a) In only
- c) In or out

- b) Out only
- d) Fully Locked

Training Your Pet:

- Do not force your pet through the door.
- Leave the door flap wedged open
- Try it at your pets meal times
- Be patient, your pet will adapt at their own pace.

Please return this slip with faulty goods and proof of purchase (invoice) to: Glaztec International Ltd, Unit 9/136 Marua road, Ellerslie, Auckland, New Zealand, Ph: 09 579 6210 Fax: 09 579 6170

GLAZTEC WARRANTY AND AFTER-SALES SERVICE

Thank you for choosing a GlazTec pet product. All products are manufactured to ISO9000 and are carefully inspected prior to leaving the manufacturing plant. We trust that you will have many years of trouble free use of your GlazTec door. The GlazTec door comes with a Three Year Warranty against product malfunction due to manufacturing or parts defects, but not failure as a result of accidental damage, mishandling or abuse. The GlazTec Universal Cat Door is protected by Copyright 1999©

Please Note! Warranty is not valid without proof of purchase. Faulty goods will be replaced and posted directly to your address.
