

# TriplePlay™ Modulator

## Make Your Own TV Channels

Asize

Use the TriplePlay™ to modulate three video sources onto three separate TV channels simultaneously. Great for security surveillance, audio/video distribution and video monitoring. View cameras, VCRs, laserdiscs, DVDs or satellite receivers on TV channels you choose and distribute them to all TVs in the home.

### Features:

- 3 TV channel audio/video modulation
- 3 independent modulated TV channels
- Combines with existing TV channels
- UHF & Cable coverage
- One button setup
- Precise digital channel control
- Internally generated test pattern
- Memory retained during power outages
- Ideal for battery powered applications
- Rugged aluminum enclosure
- Includes Wall Transformer
- 5 Year Limited Warranty

### Specifications

Output Frequency Range:	Ch. 14-69 UHF Ch. 70-94 CATV Ch. 100-125 CATV
Modulation Method:	Digital Crystal Stabilized PLL
Output Level:	+25 dBmV
Video Output Connector:	1-F-connector, 75 Ohm
Video Input Connectors:	3-RCA, 75 Ohm, 1 Vp-p
Audio Input Connectors:	3-3.5mm Stereo Jacks 75,000 Ohm, 1 Vp-p
Power Requirement:	12V DC, 300mA CL2, UL Approved Indoor Use Only
Size:	3.9" x 5.5" x 0.9"
Weight:	9.0 oz
